

# Good Seed, Good Soil Campaign

Dear Potential Donor,

We are blown away. Little did we know, when our family opened our doors in 2012, with simply a belief that our community deserved all the academic resources, support and opportunities children in other communities receive, that within six short years, we'd go from twelve students to over 400 students served and growing.

We are excited that word has gotten out about how we have been able to help students improve and excel academically. However, **we have exceeded our current space capacity and will need to move soon to accommodate more students and skilled teaching staff.**

We are writing to like-minded individuals who we know share our commitment and passion. We'd like you to join us in expanding access to academic resources such as tutoring, homework club, home schooling, seasonal camps to even more students in the Inglewood and surrounding communities by **being one of the 40 Good Seed, Good Soil donors to contribute \$100 a month for 10 months to our non-profit organization.** This will enable us to not only move into a larger facility when our lease expires in November 2019, but also expand our services and provide consistent academic enrichment, in a safe, productive learning environment.

## Our Story

The story of Urban Scholar Academy begins with a belief.

A belief that if we give children the tools they need to succeed, they will.

A belief that if you are invested in the community and see something that needs to be done, you do it.

It is the story of selflessness, persistence, and passion.

It is the story of parents of school children who saw a gap in their children's education, and decided to roll their sleeves up to improve it.

It is a story of pouring all we have into this belief and not turning back, rejoicing at the victories and pressing through the challenges.

## Will You Sow with Us?

The demand for a new site was real then. It is absolutely critical now. We hope that you will join us and sow *Good Seed* into *Good Soil*.

As the community around our academy changes, we too change; however, unlike many corporate and commercial developments, we seek to grow as we always have through our families, board of directors, friends, and you!

We must create, advocate, and maintain the change we want to see for urban youth in our communities. That is why we seek you, to be part of our **#GoodSeedGoodSoil** campaign. Any donation provided will be much appreciated and will be recognized by our organization. Urban Scholar Academy (U.S.A.) is a 501c3 tax exemption organization. Accordingly, your donation will be 100% tax-deductible. Thank you for your continued support. **Donate today and help move U.S.A. forward!**

Sincerely,

*Imhotep & Alexis Coleman*
